

MISSION CRITICAL & DATA CENTER SERVICES

LOGISTICS PLUS MISSION CRITICAL & DATA CENTER SERVICES

LP serves clients seeking a one stop global solution for T1-T4 data center projects in the crypto, AI and cloud storage sectors.

We support projects ranging in size/scope from <1MW modular DCs to 100+MW phased multi-year construction DCs.

Our end to end supply chain management services encompass the following functions:

- Demand Forecasting & Capacity Management
- Energy Services
- Engineering
- Materials procurement, long lead management and capacity reservation
- Warehousing, distribution and inventory management
- Global transportation, freight management, control towers
- Delivery, installation, commissioning, move outs, returns, and ITAD services
- Quality management

WHY CHOOSE LOGISTICS PLUS?

We provide outstanding value-added data center logistics and supply chain services through cost-effective operational planning, efficient execution, unparalleled visibility, and exceptional project management.

Our teams listen, then design customized and comprehensive supply chain solutions for our clients. Our world-renowned technology suite and customer portal can be operated independently, or can be seamlessly integrated with virtually any ERP, providing data and analytics that drive efficiency and savings.

- **Experience:** Helping our customers, both large and small, grow and succeed in every facet of logistics since 1996.
- **Expertise:** Dedicated project planners, managers, and logistics specialists who understand how things work "on the ground."
- **Reach:** Access to our established worldwide network of OEMs, fabricators, integrators, freight carriers, installation service providers and flexible warehouse locations.
- **Speed:** Ability to launch projects immediately and scale up rapidly with no red tape.
- **Passion For Excellence™:** We care and find a way to "yes" in everything we do.
